Q5. Describe Margie's mechanical teacher.

Margie ke mechanical teacher ka varnan kijiye.

ANSWER (English)

It was a large black machine with a big screen on which lessons and questions appeared. Margie put homework in a slot in punch code, and the machine instantly marked it. It had no human feeling.

JAWAB (Hinglish)

Ye ek bada kaala yantra tha jisme bada screen tha jahan lessons aur sawal dikhte the. Margie homework punch code me slot me daalti thi aur machine turant check karti thi. Usme insani bhavnaa nahi thi.

Q6. How did the mechanical teacher differ from the old human teacher?

Mechanical teacher aur purane insaani teacher me kya antar tha?

ANSWER (English)

The mechanical teacher worked on a screen, tested continually and could be set 'too quick'. The human teacher talked to a group of children, asked questions and gave homework together, making learning social and warm.

JAWAB (Hinglish)

Mechanical teacher screen par kaam karta tha, lagataar test leta tha aur 'zyada tez' set ho sakta tha. Insaani teacher bachchon ke samooh se baat karta, sawal puchta aur sabko ek saath homework deta tha - isme apnapan tha.

Q7. Why did Margie think the old kind of school was fun?

Margie ko purane school me maza kyun lagta tha?

Q8. What did Tommy say about a man being a teacher?

Ek insaan teacher hone ke bare me Tommy ne kya bataya?

ANSWER (English)

Tommy explained that in the old days a man taught the children. Margie was surprised and doubted it, as in her time only machines taught. Tommy said he only told them things and gave homework.

JAWAB (Hinglish)

Tommy ne bataya ki purane zamane me ek aadmi bachchon ko padhata tha. Margie hairan hui kyunki uske time me sirf machine hi padhati thi.

Q9. Why did Margie hope the Inspector would fail to repair her teacher?

Margie ko kyun lagta tha ki Inspector teacher ko theek nahi kar payega?

ANSWER (English)

Q10. What makes 'The Fun They Had' a science-fiction story?

'The Fun They Had' ko science fiction kyun kehte hain?

ANSWER (English)

It imagines a future (2157) where machines teach children at home, books are on screens and human teachers and schools no longer exist - ideas that depend on imagined advanced technology.

JAWAB (Hinglish)

Isme future (2157) ki kalpana hai jahan machine ghar par padhati hai, kitabein screen par hain aur insaani teacher/school nahi hain. Ye sab kalpnik advanced technology par based hai.

Q11. How was Margie's school different from schools today?

Margie ka school aaj ke school se kaise alag tha?

ANSWER (English)

Margie studied alone at home with a machine, submitted homework in punch code and her lessons were set by technology. Today children study together with human teachers in a school building.

JAWAB (Hinglish)

Margie ghar par akeli machine se padhti thi aur homework punch code me deti thi. Aaj ke bachche school building me insaani teacher ke saath ek class me padhte hain.

Q12. What did Margie say about the books on her screen?

Margie ne apni screen ki kitabon ke bare me kya kaha?

ANSWER (English)

JAWAB (Hinglish)

Margie ne kaha screen par lakhon kitabein hain aur wo aur bhi kaam aayegi. Isliye wo use kabhi nahi phenkegi.

Part 5: Long Answers (100-120 words)

Q1. Draw a character sketch of Margie.

Margie ka character sketch likhiye.

ANSWER (English)

Margie is the main character of 'The Fun They Had'. She is an eleven-year-old girl living in the year 2157. She studies at home with a mechanical teacher placed in the room next to her bedroom.

1. Curious: When Tommy shows her a real book, she examines it eagerly and wonders at the still words and yellow pages.

2. Imaginative: She imagines the old schools - children together in a building, learning and laughing - and thinks 'what fun they had'.

3. Dislikes the mechanical school: She hates the daily tests, especially geography, and hopes the Inspector cannot repair the teacher.

4. Lonely: She lacks classmates and a human teacher; this makes her long for the past.

5. Practical and honest: She values her screen's millions of books and says she would never throw it away.

In short, Margie is a thoughtful, sensitive child who realises that a machine can never replace human company.

JAWAB (Hinglish)

Margie kahani ki mukhya patra hai. Wo 11 saal ki hai aur saal 2157 me rehti hai. Wo ghar par bedroom ke bagal wale kamre me mechanical teacher se padhti hai.

1. Jigyasu: Jab Tommy use asli kitab dikhata hai to wo dhyan se dekhti hai aur ruke hue shabdon se hairan hoti hai.

2. Kalpnashil: Wo purane school ki kalpana karti hai jahan bachche ek saath padhte aur hanste the.

3. Mechanical school se naraaz: Use roz ke test aur geography se nafrat hai.

4. Akeli: Uske paas classmates aur insaani teacher nahi hain, isliye wo purane zamane ko tarasti hai.

5. Vyavaharik aur imandaar: Wo apni screen ki kitabon ki kadar karti hai.

Kul milakar Margie ek samajhdaar bachchi hai jo samajhti hai ki machine insaani saath ki jagah nahi le sakti.

Q2. Compare the school of Margie's time with the school of the old days.

Margie ke zamane ke school aur purane zamane ke school ki tulna kijiye.

ANSWER (English)

Margie's school (2157): A room next to her bedroom with a big black mechanical teacher and a screen. Lessons are given by a machine, which gives constant tests. Homework is in punch code, and a child studies alone. The teacher can be 'geared too quick' by mistake.

Old-time school: A special building where all the children of the same age came together. A man teacher taught everyone the same lessons, asked questions and gave homework. Children could talk, laugh and help one another.

Conclusion: The old school was warm, social and enjoyable; Margie's school was efficient but lonely. That is why Margie says 'what fun they had'.

JAWAB (Hinglish)

Margie ka school (2157): Bedroom ke bagal ka kamra, jisme bada kaala mechanical teacher aur screen hai. Pura padhai machine karti hai, test lagataar hote hain, homework punch code me hota hai aur bachcha akela padhta hai. Teacher galti se 'zyada tez' set ho sakta hai.

Purana school: Ek khaas building jahan ek hi umar ke saare bachche ikattha hote. Ek aadmi teacher sabko ek jaisa padhata, sawal puchta aur homework deta. Bachche baat karte, hanste aur ek-doosre ki madad karte the.

Nishkarsh: Purana school gharelu, samajik aur maze wala tha; Margie ka school kushal par akela tha. Isliye Margie kehti hai 'what fun they had'.

Q3. What is the central idea / theme of 'The Fun They Had'?

'The Fun They Had' ka mool bhav (theme) kya hai?

ANSWER (English)

The story shows that technology, however advanced, cannot replace the human touch in education. Asimov imagines a future where books and teachers are replaced by machines. Yet the children, Margie and Tommy, are fascinated by an old printed book and imagine the joy of schooling with real teachers and friends. The story warns that learning is not only about getting information; it is also about sharing, laughter, friendship and guidance from a caring teacher. Too much dependence on machines makes life lonely and mechanical.

JAWAB (Hinglish)

Kahani batati hai ki technology kitni bhi aage badh jaye, shiksha me insaani sparsh ki jagah nahi le sakti. Asimov ne aisa future dikhaya hai jahan kitabon aur teachers ki jagah machine hai. Fir bhi Margie aur Tommy purani kitab se prabhavit hote hain aur asli teacher aur doston ke saath padhne ki kalpana karte hain. Seekhna sirf jaankari lena nahi hai - isme saath, hansi, dosti aur teacher ka maargdarshan bhi hai. Machines par zyada nirbharta jeevan ko akela aur yantravat bana deti hai.

Q4. Give a summary of the story 'The Fun They Had'.

'The Fun They Had' ka saransh likhiye.

ANSWER (English)

The story is set in 2157. Margie, an 11-year-old girl, writes in her diary that Tommy has found a real book. She is surprised that the words stand still and the pages are yellow. The book describes schools of the past, where children went to a building and a man taught them.

Margie's own school is a mechanical teacher in a room next to her bedroom. She hates it, especially geography. Her mother sends for the County Inspector, who repairs the teacher and slows its geography sector. Margie, though unhappy, remains thoughtful. She imagines the fun of old schools - classmates, a real teacher and shared homework. When her mother calls her to school, Margie goes on thinking of the fun they had.

JAWAB (Hinglish)

Kahani 2157 me set hai. 11 saal ki Margie diary me likhti hai ki Tommy ko asli kitab mili. Use hairani hoti hai ki shabd ruke hue hain aur pannay peele hain. Kitab purane school ke bare me hai jahan bachche building me jaate the aur ek aadmi padhata tha.

Margie ka school uske bedroom ke bagal ka mechanical teacher hai. Use ye pasand nahi, khaaskar geography. Maa County Inspector ko bulati hai jo teacher theek karta hai aur geography sector slow kar deta hai. Margie fir bhi sochti hai ki purane school me classmates, asli teacher aur saath me homework kitna maza deta hoga. Jab maa use school bulati hai, tab bhi wo purane school ke maze ke bare me hi sochti rehti hai.

Q5. Do you think the title 'The Fun They Had' is appropriate?

Kya 'The Fun They Had' title sahi hai?

ANSWER (English)

Yes, the title is suitable and meaningful. 'They' refers to the children of the past. Margie, who studies alone with a machine, imagines how enjoyable school must have been for them - going together, learning the same lessons and being taught by a human. The title carries Margie's longing and the story's central message that human companionship makes learning joyful. The slightly sad tone of the title also shows the irony: the future has advanced technology, yet the children are less happy than those of the past.

JAWAB (Hinglish)

Haan, title bilkul sahi aur arthpoorn hai. 'They' ka matlab purane zamane ke bachche hain. Margie, jo machine ke saath akeli padhti hai, sochti hai ki unke liye school kitna maze wala hoga. Title Margie ki chaah aur kahani ke mool sandesh ko dikhata hai ki insaani saath se padhai aanand ban jati hai. Isme vyangya bhi hai: future me technology hai, fir bhi bachche purane bachchon se kam khush hain.

Q6. How does the story show the drawbacks of too much technology?

Kahani zyada technology ke nukson ko kaise dikhati hai?

ANSWER (English)

The story shows many drawbacks of over-dependence on technology. Margie is isolated at home and has no classmates. Her mechanical teacher can make mistakes (the geography sector is 'too quick') and needs a technician. Learning becomes mechanical - tests, punch codes and screens - with no emotional support. Printed books are forgotten, and children treat them as strange. The story warns that although technology can supply information, it cannot supply warmth, friendship or understanding.

JAWAB (Hinglish)

Kahani technology par zyada nirbharta ke nukson ko dikhati hai. Margie ghar par akeli hai aur uske classmates nahi hain. Mechanical teacher galti kar sakta hai (geography sector 'too quick') aur technician ki zarurat padti hai. Padhai yantravat ho jati hai - test, punch code aur screens - bhavnatmak sahara nahi milta. Chhapi kitabein bhula di jati hain. Kahani chetavni deti hai ki technology jaankari de sakti hai par apnapan, dosti ya samajh nahi de sakti.

Q7. Compare Margie and Tommy.

Margie aur Tommy ki tulna kijiye.

ANSWER (English)

Similarities: Both live in 2157, both study with mechanical teachers, both are curious about the old book and both think printed books are strange and wasteful.

Differences: Tommy is older (13) and has more knowledge about the old days; he is the one who finds the book. Margie is younger (11), more imaginative and emotional, and she is the one who feels the lack of old-school fun. Tommy tends to explain, Margie tends to wonder.

JAWAB (Hinglish)

Samanta: Dono 2157 me rehte hain, dono mechanical teacher se padhte hain, dono purani kitab ke prati jigyasu hain.

Antar: Tommy bada (13) hai aur purane zamane ke bare me zyada jaanta hai - wahi kitab dhoondhta hai. Margie chhoti (11), zyada kalpnashil aur bhavuk hai aur use purane school ke maze ki kami mehsoos hoti hai.

Part 7: HOTS / Value Based Questions

Q1. Do you agree that machines can replace teachers? Give reasons.
Kya aap maante hain ki machines teachers ki jagah le sakti hain? Karan dijiye.

ANSWER (English)
No. Machines can supply information, give tests and teach at one's own pace, but they cannot show care, correct our attitude, inspire us or build friendships. Teachers explain with emotion, notice a child's mood and guide character. As Margie's life shows, learning alone becomes dull and lonely.

JAWAB (Hinglish)
Nahi. Machine jaankari de sakti hai, test le sakti hai, par apnapan, prerna, dosti aur charitra nirman nahi de sakti. Margie ki zindagi dikhati hai ki akela padhna uboo aur akela bana deta hai.

Q2. If you were Margie, what would you do on finding the book?
Agar aap Margie hote to kitab milne par kya karte?

ANSWER (English)
I would read it eagerly, ask my parents about old schools, and share it with friends. I would try to preserve it and make friends who could study with me, so that I could enjoy learning more.

JAWAB (Hinglish)
Main use utsukta se padhta/padhti, maata-pita se purane schools ke bare me puchta/puchti aur doston ke saath share karta/karti. Main dosto ke saath padhne ki koshish bhi karta/karti.

Q3. What values does the story teach?
Kahani hume kaun se moolya sikhati hai?

ANSWER (English)
It teaches that we should value books, teachers and friends; not depend wholly on machines; and enjoy the social side of learning. It also teaches curiosity and the importance of preserving our heritage.

JAWAB (Hinglish)
Ye sikhati hai ki kitabon, teachers aur doston ki kadar karein, sirf machines par nirbhar na rahein aur seekhne ke samajik pehlu ka aanand lein. Jigyasa aur virasat sambhalna bhi sikhati hai.

Q4. How is the story relevant today?
Kahani aaj ke samay me kitni prasangik hai?

ANSWER (English)
During the pandemic many students attended school online and learned alone through screens, just like Margie. They realised how much they missed their friends and teachers. The story is therefore very relevant today.

JAWAB (Hinglish)
Pandemic me kai bachche Margie ki tarah akele online padhe aur doston-teachers ki kami mehsoos ki. Isliye kahani aaj bhi bahut prasangik hai.

Part 8: Writing Skills / Lekhan Kaushal

1. Diary entry (Tommy)

Write Tommy's diary entry for 17 May 2157.

SAMPLE ANSWER

17 May 2157, Saturday, 9:30 p.m.

Dear Diary,

Today was the most exciting day of my life. While searching in the attic, I found a real printed book! Its pages were yellow and crinkly and the words did not move. It told about schools of long ago where children sat together and a man taught them. I showed it to Margie, and she was amazed too. We talked for a long time about how much fun those children must have had. I wish I could see one such school. I am going to hide the book in a safe place.

Tommy

Hinglish tip: Diary entry me date, day, time, 'Dear Diary', first-person likho. 3-4 mukhya baatein: kitab kahan mili, kaisi thi, kya padha, kya feel hua.

2. Paragraph writing

Write a paragraph (100 words) on 'Technology and Education'.

SAMPLE ANSWER

Technology has changed education in many ways. Today students can learn through videos, online classes and e-books. It is quick, convenient and reaches remote areas. However, it also has limits. A machine cannot give love, guidance or encouragement like a human teacher. Students who study only through screens may feel lonely and lose social skills, as shown in Asimov's story 'The Fun They Had'. Therefore, technology should be a helper, not a replacement for teachers. The best education combines modern tools with the human touch.

Hinglish tip: Pehle fayde, fir nuksan, last me balance conclusion likho.

3. Letter writing

Write a letter to a friend describing how you would like to experience 'old-time school'.

SAMPLE ANSWER

12, Model Town

14 November 2026

It made me think how lucky we are to have classmates, friends and real teachers. We laugh, play, share notes and learn together. I now value my school even more. Please read this story and tell me what you think.
